

# Entertainment made simple

Easily control your music moods or enjoy direct and intuitive access to your video entertainment center. Otomis delivers personalized design of the universal touch screen remote, breaking technological barriers for your benefit.

# Master Your Environment

Nothing lets you control your living space like a custom designed management system. At the touch of a finger you'll be able to peer into rooms to check their status, control audiovisual programs and lighting schemes, and even access heating or air conditioning system. All these controls are simple to operate with touch screen panels or wall-mounted control keypads.

# Peace of Mind

You can now remotely keep an eye on your property which can help prevent domestic accidents (fire, floods) and better manage the energy used. To fend off unwanted visitors, you can "appear" to be at home and also prepare your home for your arrival.

*When your desires become Passion...*

Are you an individual planning to build a new home, a home owner planning to modernize his/her house, or a business owner looking to improve the ambiance in the work place?

**How can refined technology maximize your comfort?**

Automation now allows you to manage your environment in an intelligent and intuitive way. Otomis brings you its intimate knowledge to meet your requests in integrating an aesthetically pleasing, easy-to-use system.

*Our Goal*

Specializing in the research and development of automation systems, we can help you to control every aspect of the comfort of your environment.

As a privileged partner to architects, interior designers, and research departments, Otomis will be involved in every step of your project and will provide you with individualized services and ideas.

Our involvement does not stop once your system is installed; we will be by your side to ensure that your future needs are well cared for.

*Hotel Rooms and Private Residences*

Each room's ambiance can be adjusted according to each person's needs, easily and with style. Whether it's a home or hotel room, ultimate comfort always leaves a positive impression.

*Corporate and Commercial*

Take the work out of managing complex lighting schemes and multimedia equipment in conference rooms, restaurants or businesses. See what a more welcoming feel to your reception area can do to promote repeat business.

*Yachting*

A high quality, multi-room audio system as well as a perfectly integrated video system allows you to adjust your nautical environment to enjoy at-home comfort during a family cruise. Applied to a professional context, the system will also allow you to optimize your working sessions aboard.
